

# Executive Briefing

## Karl Kelton

### Operations Excellence

- Increase Your Throughput, Improve Asset Utilization, Increase Productivity, and Lower Your Cost Structures by Up to 40%
- Learn How to Make Performance Improvement Happen Through Strategy, People, Processes, Assets and Technology – in Practical Terms
- Learn What Your Peers are Doing to “Master the Complexity” of Operational Performance Management

Karl has over 25 years of lean operations and 6 Sigma consulting experience in a wide range of industries. He has worked extensively in the manufacturing sector and focuses on the design & implementation of practical solutions that deliver a minimum 3:1 return to a client's bottom line.

He is a member of CIM (Canadian Institute of Mining, Metallurgy and Petroleum) and the author of numerous articles. Karl has successfully implemented numerous assignments involving extensive process design and operational improvement in all areas of a client's operations including: Supply Chain and Materials Management, Strategic Sourcing, Production planning & control, Factory Operations, Engineering Services, and plant maintenance.
